

OUR QUALITY POLICY

At C2S Aerospace Solutions, we use our expertise in the Aerospace and Defense Industry supply chain sector to maximize customer satisfaction. With 20 years of strong industry experience, we continue to represent global level companies with a professional approach, complying with ISO 9001:2015 and AS 9120B standards and quality requirements and reliably serving our customer base in the Turkish Aerospace and Defense Industry. We also aim to meet the needs of our customers at an optimum level by providing hard-to-find parts management, obsolete parts procurement and logistics solutions.

We continue our activities by adhering to the following principles;

Customer Satisfaction: To continuously exhibit a solution-oriented approach to understand and exceed the expectations of our customers.

Quality and Reliability: Maintaining high quality at every stage of our products and services and ensuring full compliance with industry standards and legal requirements.

Continuous Improvement: To continuously evaluate and improve our processes, increase our efficiency and offer innovative solutions.

Innovation and Flexibility: Adopting the principles of innovation and flexibility to adapt to the developing technology and industry.

Environment and Sustainability: To minimize our negative impact on society and the environment by offering environmentally friendly and sustainable solutions.

This quality policy is adopted by all our employees and forms the foundation of our Quality Management System.
